COMMENTS

The Public Representative has reviewed the Postal Service's Notice, the attachments thereto, and the supporting financial model filed under seal that accompanied the Notice. Based upon that review, the Public Representative concludes that ILR for the Inbound Parcel Post (at UPU Rates) product satisfy the requirements of 39 USC 3633(a).

Pursuant to 39 USC 3633(a), competitive prices must ensure that each competitive product (1) do not result in market dominant products subsidizing competitive products, (2) ensure that each competitive product covers its attributable

costs; and (3) enable competitive products as a whole to cover an appropriate share of the institutional costs of the Postal Service.

The Postal Service's financial model indicates that the rates for Inbound Parcel Post (at UPU Rates) will generate sufficient revenue to cover attributable costs. Therefore, the rates comply with 39 U.S.C. § 3633(a)(2), and should not result in competitive products as a whole being subsidized by market dominant products, in accordance with 39 U.S.C. § 3633(a)(1). Also, the changes in rates for the Inbound Parcel Post (at UPU Rates) product is unlikely to prevent competitive products as a whole from contributing an appropriate share to the Postal Service's institutional costs, consistent with 39 U.S.C. § 3633(a)(3).

The Public Representative respectfully submits the foregoing comments for the Commission's consideration.
